

INFUSION™

Microbubble Therapy by NuWhirl®

5 Reasons

*Why Your Customers
Will Love Infusion*

Engineered and supported
by people you trust

INFUSION BY NUWHIRL® IS LIQUID LUXURY

NuWhirl's technology uses pressurized water to create oxygen-rich microbubbles. The result: hydrotherapy that envelopes and massages your body, offering an incredible experience beyond any ordinary bath.

Help your customers
rejuvenate mind and body.
Tell them about Infusion's benefits.

1 EVERYDAY LIQUID LUXURY

With *Infusion*, you're floating in the silky embrace of millions of micro-sized bubbles, surrounded by a pool of continuously-warming water. Take a vacation every day from anxiety, aches, and pains.

2 THE PERFECT TEMPERATURE... ALWAYS

During a normal bath, the water cools, and your body fights to stay warm. *Infusion* works differently. The bathtub's temperature increases about 1°F each hour and eliminates the need for adjustments.

3 PROVEN TO SOFTEN SKIN AND IMPROVE HYDRATION

We've tested it so that you'll love it. In third-party laboratory findings, every participant demonstrated increased hydration, and nearly 80% experienced softer skin (an average 10% improvement.)

4 A HOME SPA TREATMENT

Infusion stimulates the skin to promote restfulness and the release of muscle tension. Keep these relaxing effects with you throughout your day.

5 AN EXPERIENCE PEOPLE DON'T WANT TO END

People who tried *Infusion* in our third-party study had extremely high opinions of the product, and nearly all said they would recommend *Infusion* to a family member or friend.
