

TRIM COMPONENTS

Differentiate and Elevate Your Bathtubs

With easy-to-install components, manufacturers can offer customers attractive design, unique configurations, and an intensely therapeutic experience.

Why Bathtub Manufacturers Love

NuWhirl® TRIM COMPONENTS

Customizable Configurations

Give customers a unique bathing experience with hundreds of combinations of sizes, colors, and features.

Elegant and Intuitive Design

Visually pleasing, easy-to-use components help drive sales by creating a more inviting bath.

Exceptional Value

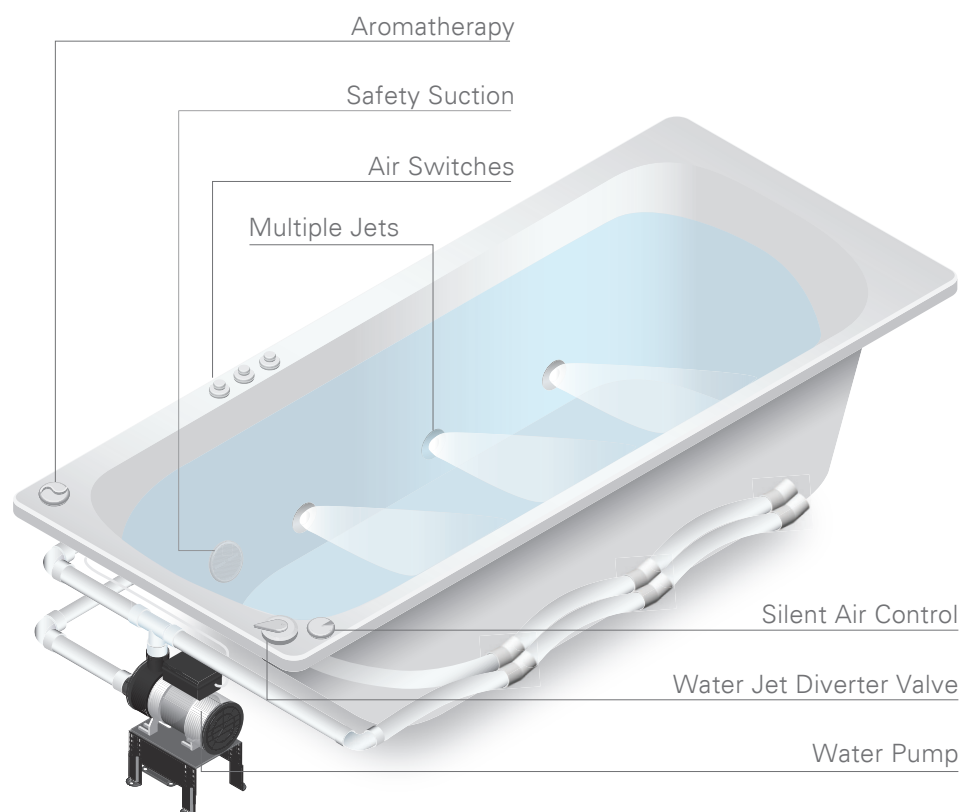

Simple installation and reliable components reduce labor, construction, and warranty costs for bath manufacturers.

Exciting Color Palette

Replace "xx" in item numbers with color codes above.

Some finishes not available on select models.

Explore our products, and learn more about why manufacturers love NuWhirl trim components.

impressions

Flush-Mounted Fittings

Combining Attractive Style with Unparalleled Comfort

The Impressions line features beautiful, Bauhaus-inspired design that lets bathers rest comfortably against the whirlpool tub's surface.

Multiple styles and custom colors are available. Suction fittings are cURus listed, and select models offer a jet body venturi configuration for improved drainage and cleaner water lines.

THE BEAUTY OF WATER.
THE SCIENCE OF RENEWAL.

Build Great Bathtubs Better with **NuWhirl TRIM COMPONENTS**

NuWhirl Systems Corp is a leading producer of innovative and attractive bath parts, including our high-quality trim components.

We make it easy for bath manufacturers to transition to NuWhirl. It's one of the reasons nearly 70% of the industry partners with us.

Manufacturers choose NuWhirl because our components have the design, features, and reliability their customers want. We also:

Maintain a lead time of five business days with all stock parts.

Place no order minimums on standard products.

Offer free freight on orders over \$10,000.

Back our parts with 30+ years of product development experience.

Contact our sales team to explore trim components and all of our company's products.
