Low Profile Electronic Keypad

The CIDU 315-01-08-15 is a low profile digital display unit with blue LED screen that allows the bather to control the bath experience with ease. The unit sits nearly flush to the tub for an outstanding, contemporary aesthetic.

Features and Benefits

8 Buttons Design One stop control for all the optional features of a premier whirlpool bath - pumps, blower, lights, solenoid valve for back jets and foot jets—for a great user experience.

Stylish Design This super thin design sits almost flush with the tub surface and complements any contemporary bath tub application. Mutable illuminated buttons with BLUE LED's for user preference settings.

State of the art design plus high quality materials and conformal coatings Assures reliable performance in the most challenging bathroom environments.

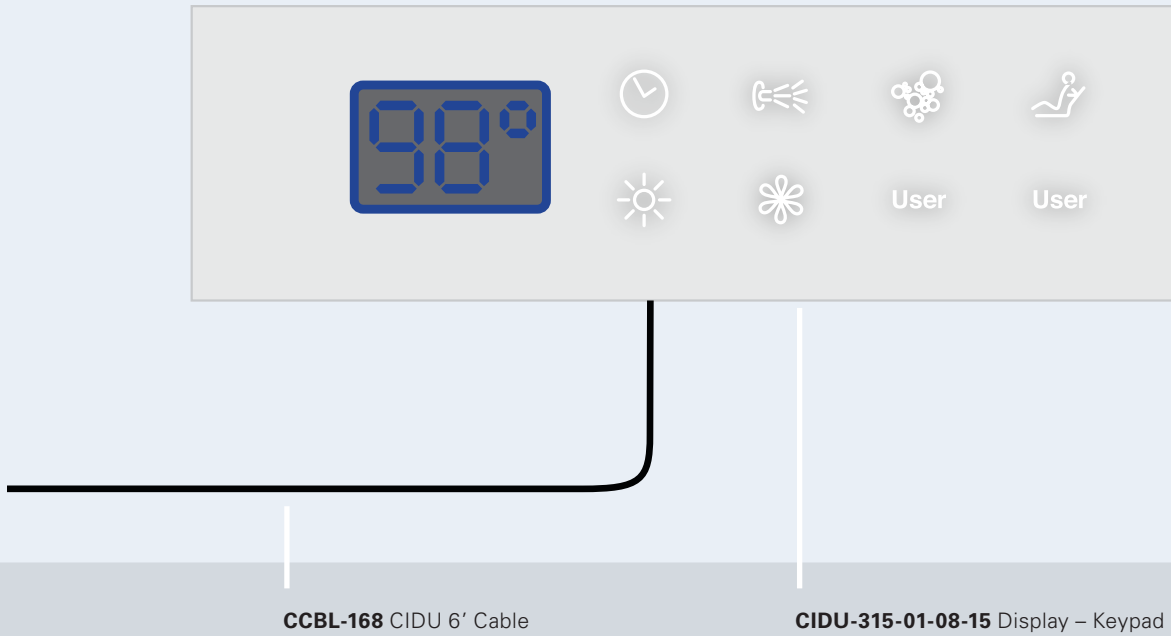

No complicated programming Simply follow the illuminated icon marked keypad buttons to select and activate bath features.

Easy to Install No complicated wiring, super easy keypad installation using a pressure sensitive adhesive backing.

Exceptional service support: TOUCHSTONE® electronic controls are supported by the best engineering, sales and customer care in the Whirlpool Bath industry.
